

# English speaking club

The aim of the English Speaking Club is to help students overcome difficulties in the process of learning English, to foster and to enhance English proficiency for all students of Nguyen Hien High School. The club meetings usually take place with the participation of a large number of enthusiastic students. Joining the club, students have the opportunity to improve the basic skills such as listening, speaking, reading, and writing. Among them, the two skills, listening and speaking, are particularly paid attention to because these are two important skills to assist students to be able to communicate well in real situations.

The first benefit of joining our speaking club is the environment to practice your English - where people have passion for English and have the same goals as you do. During the course, you can comfortably improve your abilities by practicing with your friends, as well as with the experienced and enthusiastic teachers from the English Department. Regularly and continuously speaking English, listening to English, role-playing in English, singing English songs, communicating in English ... make club members no longer hesitate to speak English, become confident and use English fluently.

*Groups are giving their presentations*

Our speaking club brings people with similar goals together to enhance the necessary English skills. We are a team consisting of passionate people with the goal: "Let's help one another to advance".

Our English Speaking Club opens at 9:00 a.m every Saturday morning. Hopefully, the club will receive your enthusiastic participation.

Below are some activities that our club members usually have.

*Groups are answering the presenters' questions*

*Students are discussing in groups*
